Death in Service

Context: When a death-in-service occurs, a Death Gratuity benefit is usually payable to the deceased member's estate. Separately, a Spouse/Civil Partner Pension and a Child Pension(s) may also be payable to eligible beneficiaries if the deceased member had completed at least 2 years (Vesting Period) as a member of the Scheme.

	General Information	<ul style="list-style-type: none">It is acknowledged that there are a number of parties that Pensions Administrators may need to deal with when processing Death in Service cases. These include the Legal Personal Representative of the deceased's estate, solicitors acting on behalf of a next-of-kin as well as Spouse/Civil Partner and Eligible Child Pension Benefit applicants.Circular 11/2017 and Guidance Note 01 of 2017 should be referred to for information on Death in Service cases and benefit calculationsIn all cases a Death Gratuity is payable to the Legal Personal Representative of the deceased's estate.Spouse/Civil Partner and/or Eligible Child Pensions are payable only where the deceased member had vested in the Single Scheme.

There may be existing death verification processes in place across Relevant Authorities that provide reliable access to such information (i.e. via the GRO database or a Death Notification system). Notification of death

- Death is notified to Relevant Authority - verify death through official source (e.g. GRO system access, interim death cert)
- Initial notification of death should be verified through more than one source (i.e. family member notifies, death notice in newspaper)
- Establish date of deceased member's death
- Update systems so salary/pension is stopped
- Establish who Legal Personal Representative (LPR) is - if the LPR is unknown a formal letter can be sent to the deceased's last known address to the **"Legal Personal Representative of the Estate of <deceased member name>"**

Following notification of death...

Prepare and issue:

- Legal Personal Representative Cover Letter
- Death Claim Notification Form
- Information Note

Which death benefit processes apply?

- Death Gratuity?
- Spouse /Civil Partner Pension?
- Child Pension?
- All of the above?

Death in Service

Death in Service – Death Gratuity

- Lump sum payable to the *Legal Personal Representative* and payable where the Death in Service of a vested or non-vested member occurs
- Paid by the final Relevant Authority employing the member at the date of death.
- Any benefits accrued with other Single Scheme employers must be consolidated and factored into gratuity calculation

Death in Service – Death Gratuity

- Review **Death Claim Notification Form**.
- Final Relevant Authority is responsible for calculating and paying the death gratuity. Any benefits accrued with other Single Scheme employers must be consolidated and factored into benefit calculation
- Death Gratuity is equal to **twice the deceased member's pensionable remuneration** in the 12 months prior to the date of death **less** any pension lump sum paid or payable from a pre-existing public service pension scheme
- Verify if member was employed by final Relevant Authority for the last 12 months or if member was also employed with another Relevant Authority in the last 12 months

*Circular 11/2017

Death in Service – Death Gratuity

- Contact former Relevant Authority and validate member personal details and confirm:
 - *Membership of the Single Public Service Pension Scheme*
 - *Work pattern and dates of pensionable employment*
 - *Applicable pensionable remuneration in the 12 month period prior to the member's death*
- Verify that no other pension lump sum payments have been paid or are payable under any other public service pension scheme

Note: *If the aggregate amount of public service superannuation lump sums (and death gratuity from a pre-existing public service pension scheme) previously paid or payable is more than twice the pensionable remuneration of the Scheme member in the 12 months prior to death, no Death Gratuity shall be awarded*

*Section 30 of the 2012 Act and paragraph 6 of Circular 11/2017

Death in Service – Death Gratuity Calculation

- **Twice the Pensionable Remuneration of the deceased member in the 12 months prior to their death**, less any superannuation lump sum previously paid under pre-existing public service or Single Pension scheme
- If deceased member was **working part-time Death Gratuity calculated on the basis of the full-time rate**
- If any other lump sum(s) has been paid or are payable under any other pre-existing public service pension scheme, the amount should be deducted from the gross Single Scheme Death Gratuity amount
- If employed with final RA for less than 12 months and employed previously with another RA in the 12 months period, contact former RA to establish pensionable remuneration for 12 months prior to death
- If the deceased member was in the scheme for **less than 12 months the amount will be twice the Pensionable Remuneration earned for this shorter period**

Death in Service – Death Gratuity Calculation

- Where a Single Scheme member dies while on employer approved unpaid leave (e.g. Shorter Working Year, Career Break), the Death Gratuity is calculated at **twice the current equivalent** of the deceased member's pensionable remuneration
- A member who dies while on employer approved leave is treated, for the purposes of *Death Benefit Administration*, as a *Death-in-Service*

Death Gratuity Calculation Example 1

- Single Scheme member with pensionable remuneration of **€50,000 per annum** (FTE 1.0) dies after 4 years of continuous pensionable employment as a member of the Single Scheme
- No additional public service pension-related lump sum previously paid or is payable
- Death notified to Relevant Authority, verified and LPR identified
- Assessment of the completed returned Death Claim Notification Form confirms that a Death Gratuity is payable

1. **Member of the Single Scheme for 12 months prior to death?**

Yes

2. **Pensionable remuneration in 12 months prior to death:**

€50,000 per annum

Calculate Death Gratuity = *twice the pensionable remuneration in the 12 months prior to death, less any applicable public service pension related lump sum paid or payable*

➤ Other public service pension related lump sum paid or payable:

€0

➤ Death Gratuity:

(2 * €50,000) = €100,000

Death Gratuity Calculation Example 2

- Single Scheme member with pensionable remuneration of **€50,000 per annum** (FTE 1.0).
- Dies after 7 months of continuous employment as a member of the Single Scheme.
- No additional public service pension-related lump sum previously paid or payable.
- Death notified to Relevant Authority, verified and LPR identified.
- Assessment of the completed returned Death Claim Notification Form confirms that a Death Gratuity is payable

1. Member of the Single Scheme for 12 months prior to his death?

No

2. Pensionable remuneration for 12 months prior to death:

€29,166.67 (€50k x 7/12)

Death Gratuity Calculation Example 2

Calculate Death Gratuity = *twice the pensionable remuneration in the 12 months prior to death (in this case amounts to 7 months only) less any applicable public service pension related lump sum paid or payable*

➤ Other public service pension related lump sum paid or payable: **€0**

➤ Death Gratuity: **$(2 * €29,166.67) = €58,333.34$**

"...in cases where membership of the Single Scheme covers a period of less than 12 months prior to death, the Death Gratuity for that Scheme member should be calculated as twice the pensionable remuneration of the Scheme member in that shorter period, expressed on a full-time basis."

Paragraph 5, Circular 11 of 2017

Death Gratuity Calculation Example 3

- Vested Single Scheme member with pensionable remuneration of €21,000 working on a part-time basis (FTE 0.50). Date of death is 15 April 2020.
- No additional public service pension-related lump sum previously paid or payable and death notified to RA, verified and LPR identified.
- Assessment of the completed returned Death Claim Notification Form confirms that a Death Gratuity is payable

1. Member of the Single Scheme for 12 months prior to his death? Yes

2. Pensionable remuneration for 12 months prior to death: €21,000 (€42k x 0.5)

Death Gratuity Calculation Example 3

Calculate Death Gratuity = twice the pensionable remuneration in the 12 months prior to death, less any applicable public service pension related lump sum paid or payable

Actual Gross Pensionable remuneration:	€21,000
FTE:	0.50 / 50%
Adjusted FTE 1.0 remuneration:	€42,000
Gross Death Gratuity:	(2 x €42,000) = €84,000

"...a Scheme member was working on a part-time basis during the 12 months prior to his or her death, his/her pensionable remuneration for the purposes of the Death Gratuity, would be calculated on the basis of the full-time rate."

Paragraph 4, Circular 11 of 2017

Death Gratuity Calculation Example 4

- Single Scheme member working to FTE of 1.0 and has been on employer unpaid sick-leave for a period of five months up until death on 15 April 2020. Pensionable remuneration is **€42,000** per annum.
- No additional public service pension-related lump sum previously paid or payable.
- Death notified to Relevant Authority, verified and LPR identified. Assessment of the completed returned Death Claim Notification Form confirms that a Death Gratuity is payable

1. Member of the Single Scheme for 12 months prior to his death?

Yes

2. Pensionable remuneration for 12 months prior to death:

€42,000

Death Gratuity Calculation Example 4

Calculate Death Gratuity = twice the pensionable remuneration in the 12 months prior to death, less any applicable public service pension related lump sum paid or payable

Pensionable remuneration:

€42,000

FTE:

1.0 / 100%

Gross Death Gratuity:

(2 x €42,000) = €84,000

*"Similarly, in the case of a Scheme member who was on sick leave without pay **or on Temporary Rehabilitation Remuneration (TRR)** etc. in the 12 months prior to his or her death, his/her pensionable remuneration for the purposes of the Death Gratuity would be calculated on the basis of the full-time rate."*

Paragraph 4, Circular 11 of 2017

Death Gratuity Calculation Example 5

- Single Scheme member with pensionable remuneration of **€50,000 per annum** (FTE 1.0) employed since 2014 and was approved to go on a Career Break for three years in 2018
- Dies 18-months into his Career Break
- No additional public service pension-related lump sum previously paid or is payable
- Death notified to Relevant Authority, verified and LPR identified
- Assessment of the completed returned *Death Claim Notification Form* confirms that a Death Gratuity is payable

1. Member of the Single Scheme for 12 months prior to death?

Yes

2. Pensionable remuneration for 12 months prior to death or current equivalent pensionable remuneration for post:

€50,000 p.a.

Death Gratuity Calculation Example 5

Calculate Death Gratuity = twice the current equivalent pensionable remuneration for post, less any applicable public service pension related lump sum paid or payable

- Other public service pension related lump sum paid or payable: **€0**
- Death Gratuity: **$(2 * €50,000) = €100,000$**

A scheme member who avails of a career break is not a deferred (or preserved) Scheme member. Scheme members retain their status as a serving pensionable civil/public servant while on career break. Where a member dies while on career break, the death should be treated as a death in service.

False

Spouse / Civil Partner Pension

Spouse / Civil Partner Pension

- Verify if the Deceased had a surviving Spouse/Civil Partner - Refer to **Death Claim Notification Form**
- Final Relevant Authority is responsible for processing and paying Spouse/Civil Partner Pension. Any prior benefits held with other Single Scheme employer must be verified and factored in
- Verify if the deceased member was in the Single Scheme in previous employment(s) -
 - *Issue Single Scheme Verification Form(s) to former RA employer(s)*

- Verify that the deceased member was vested at date of death

- Review completed application and supporting documentation and peer review

Spouse / Civil Partner Pension

- Calculate deceased member's pension referable amounts earned and/or restored to date of death in final and previous employment(s)
- Pension referable amounts calculated for all employments.
- In the case of a Scheme member who dies in service, **referable amounts purchased up to the date of death** can be used in the calculation.

- Where a Spouse/Civil Partner pension has been awarded, payment ceases if:
 - *Spouse/Civil Partner remarries*
 - *Enters another Civil Partnership or*
 - *Is cohabiting with another person*
- Annual Pension Declaration completed by pension recipients confirms eligibility for ongoing payment of Spouse/Civil Partner pension

Spouse / Civil Partner Pension

- Single Scheme member, in pensionable employment with the same RA since joining the public service. Date of birth is 14 November 1969.
- Death has been notified to his RA and verified
- Civil status is “married” at the date of death
- In receipt of pensionable remuneration of **€50,000 per annum** at the date of death
- Died on the **15th of October 2022** after 3 years of continuous employment as a member of the Single Scheme
- During that time the member accrued pension referable amounts (adjusted for CPI where appropriate) of €1,002, accruing €334 per annum in years 1, 2 and 3
- A Spouse’s pension is payable following receipt of a completed *Spouse or Civil Partner Application Form* and supporting documentation

Spouse / Civil Partner Pension

Was member vested in the Single Scheme?

Yes

Was member employed by another RA in the 12 months prior to his death?

No

Member's Normal Retirement Age and date?

66 years of age/14 November 2035

How much in pension referable amounts had member accrued as a member of the Single Scheme?

€1,002

Which is higher – referable amount accrued in most recent full year or average amount in the three most recent full years?

Both the same - €334

Spouse / Civil Partner Pension

Will these referable amounts be enhanced as part of the Spouse's pension calculation and, if so, how?

Two factors relevant:

- time from date of death to date of normal retirement age $(14/11/2035 - 15/10/2022)/2 = 6.50$
- monetary – higher of referable amounts accrued in most recent full year versus average referable amounts accrued in the three most recent years = **€334**

initial enhancement calculation = $(€334 \times 6.50) =$ **€2,171.00**

Does amount of €2,171 exceed 10 times referable amount accrued in most recent full year?

No, $10 \times €334 = €3,340 > €2,171$

Deceased's enhanced pension = $€1,002 + €2,171 =$ **€3,173.00**

Spouse's pension = $(€3,173 / 2) =$ **€1,586.50 p.a.**
